Craftmanship, quality & authenticity since 1970!

EN | Vatenhandel G.J. Stijf BV has been your reliable partner, in all products what has remotely to do with wood, for 50 years now. These years of experience has resulted in an unprecedented piece of craftsmanship. From production, purchase and distribution of rain barrels, flower boxes, tubs and crates or improving yours sales by doing all sorts of Custom Made projects, is our daily fare. That is why our target audience goes beyond the garden industry. Some industries where we operate: Garden shops, construction shops, restaurants, supermarkets, fish shops, wellness centres & amusement parks, design & furniture stores, Christmas and corporate gifts – basically anything with wood or wood related products.

Our main clients are located throughout Europe, but in addition, we have the necessary experience with customers outside Europe.

Because we have a large distribution centre and our own logistics centre, we can always provide fast and qualitative delivery within the whole of Europe. For the rest of the world we have a large network of partners, so this is no obstacle either.
