Craftmanship, quality & authenticity since 1970!

EN | Vatenhandel G.J. Stijf BV has been your reliable partner, in all products what has remotely to do with wood, for more than 55 years. These years of experience has resulted in an unprecedented piece of craftsmanship. From production, purchase and distribution of rain barrels, flower boxes, tubs and crates or improving yours sales by doing all sorts of Custom Made projects, is our daily fare. That is why our target audience goes beyond the garden industry. Some industries where we operate: Garden shops, construction shops, restaurants, supermarkets, fish shops, wellness centres & amusement parks, design & furniture stores, Christmas and corporate gifts – basically anything with wood or wood related products.

Our main clients are located throughout Europe, but in addition, we have the necessary experience with customers outside Europe.

Because we have a large distribution centre and our own logistics centre, we can always provide fast and qualitative delivery within the whole of Europe. For the rest of the world we have a large network of partners, so this is no obstacle either.

Our motto: Craftmanship, Quality & Authenticity!

Focus on sustainability

Old wooden barrels deserve a second life and we give them one. In our own cooperage, we transform used wine, whisky, and port barrels into something new. With a love for craftsmanship and the environment, we create sustainable products with character.

Everything we do revolves around reuse and in-house production. We collect old wine, whisky, and port barrels and give them a new purpose. Every barrel that comes through our doors is carefully taken apart, worked on, and rebuilt into something unique: from rain barrels to furniture, from lamps to home accessories.

By upcycling, we reduce waste and actively contribute to a circular economy. Instead of using new raw materials, we bring out the value in what already exists. The wood carries visible marks of its past making each piece special and authentic.

We produce everything ourselves, in our workshop in the Netherlands. No mass production, but real craftsmanship and attention to detail. This keeps the supply chain short, the impact small, and the quality high.

Our products are more than just functional; they tell a story. A story of origin, sustainability, and creativity. And that's a story we proudly share.

Where Craftsmanship and Heritage Unite

Barrel Cave is an innovative concept where craftsmanship, passion, and sustainability come together. Each piece is carefully crafted from reclaimed wine and whisky barrels that once played a vital role in aging some of the world's finest spirits.

These characterful barrels are given a second life in robust and stylish designs, where traditional craftsmanship remains visible and the story behind the material is tangible. No mass production—just authentic, handcrafted quality with respect for materials and attention to detail.

Barrel Cave is ideal for garden houses, mancaves, outdoor kitchens, and BBQ areas. A distinctive product for garden centers and lifestyle retailers who value quality, sustainability, and storytelling.

100% reused materials
No new resources, just
pure craftsmanship.

The "Beef master" is made of the thick wood of a 225 litre oak wine barrel. Apart from the original look it gives the meat an exceptionally tasty BBQ flavour. Thanks to all the modern gadgets, like a

thermostat and the Tip Top Temp system, this sturdy "Beef master" is suited for grilling, baking, and smoking. It has fold-out surfaces of stainless steel on the sides, ideal for your BBQ tools.
